At the 2010 Annual Meeting, the AMCA Board of Directors created the Young Professionals Group.

- To promote interaction among young professionals in the field of mosquito control and research. Members may be students (undergraduates/graduates) with an interest in medical entomology, mosquito control/industry employees, research scientists/post docs in government/private institutions new in the professional world (~5 years or less).
- To promote interaction between young professionals and well-established, experienced and well known professionals in the field of mosquito control and research.
- To promote already existing student activities during the AMCA annual meeting and create new activities to increase participation of AMCA Young Professionals.
- To highlight research/professional achievements of AMCA Young Professionals.
